AMERICAN STOCKS show a decline of four to six per cent. in London. The Petherickers should be sent out to revive them.

JOHN MARSHALL, Esq., a distinguished Tennessee lawyer, died at his residence in Franklin, Tennessee, on tbe 3d inst.

THREE THOUSAND, six hundred and ninety-nine dollars were awarded in premiums at the late Indiana State Fair.

IF the rebel rams in Great Britain are not allowed to run out, the rebellion will be likely to run out soon.

THE rebel money isn't like the Federal money, green, but those who take it except upon compulsion are.

TOM THUMB retires upon a quarter of a million. It is sometimes easier to make a fortune by littleness than by greatness.

MOSEBY, the guerilla, is alive after all and moving about—some say upon one leg, some upon two.

THE papers quote Mr. BROWNSON as saying that this war is no calamity. The man who says that it isn't a calamity is one himself.

THE question as to the British-built rebel rams is still discussed in England. If they come over here our navy will undertake tc discuss them.

Faint Sketches of Men of Our Day.

NO. XVI.—DON CARLOS BUELL.

When the public clamored for an advance upon Bowling Green in 1862, and wondered why the Army of the Ohio dallied, like its older brother in idleness on the Potomac, the War Department in its wisdom detached a thoroughly drilled, stern disciplinarian from the Eastern Army, and sent him West to take up the ragged pieces of the Army of the Ohio, and fit them together according to the latest model. Anderson would not undertake a campaign; Sherman did not give satisfaction; so a third leader had to be selected before that army was fairly organized. Buell was universally acknowledged to be the best disciplinarian in the Army of the Potomac in its palmy, grand reviewing days, when he commanded a brigade. He had the reputation of possessing quite a stock of executive talent; he had the honor of graduating in our great military school, with more than the usual amount of praise; he had given evidence ot talent in the service, and during the interval when he was engaged in civil pursuits—in short, he was the man for the place, above all others, it was said. So he began his work in the West with the confidence of eighteen millions of people, it may be said, although up to that time the people had heard little about him.

Now, we do not doubt anything that was said of and *for* him at that time—he has demonstrated a *part* of it to be a truth since. Whether the rest was a mere made up reputation or not very few of us can assert or deny. Some of us, however, while merely glancing at, and by no means attempting to review his career as commander of a vast department, find a great deal that is calculated at first sight to perplex, but which gradually assumes a more definite shape, and becomes the more *positive* the longer it is looked at with the aid of a trifle of political information. In short, when we are told plainly that Buell was a pro-slavery man at the beginning of the rebellion, much that was obscure becomes comparatively clear and distinct.

No man should find fault with the advance upon the rebel strong-hold at Bowling Green. The Army of the Ohio was not in condition at that time to undertake a march, it lacked the most essential requisite—transportation.

Notwithstanding Albert Sidney Johnston outwitted Buell in the matter of paper soldiers, claiming twenty when he had only twelve thousand men, while our forces were in reality over twenty-five—afterwards forty-five—that has been a very successful dodge of the enemy's, and has caught other men as well as Buell. No! the greatest fault the nation can charge Buell with was his strange delay in going to the reinforcement of Grant at Savannah. He seemed to move just about fast enough to give his pro-slavery friends ample time to get out of the way, and even his battle struck many with the not unnatural thought that he whipped them as a child is punished when it fails to take one of those stereotyped domestic hints that are thrown out to save trouble.

He had a most superb army, superbly equipped. Nothing that has since transpired serves in any manner to explain *why* that army dallied around Nashville till the last of March. The division commanders were eager for the fray, and the men, never having been in any engagement of consequence longed to advance; still they dawdled along slowly. It was only by dint of more than common energy that Gen. Nelson reached the battle field in time to engage in the first day's conflict. While M'Cook's men were constructing a bridge over Duck river, Nelson came down, spit out his disgust of the delay in his usual manner, and forthwith ordered his men to strip and wade the river, which they did in regular order. Many of them were seasoned troops, and it was no new thing for them to strip to the buff in crossing streams. In the march to, and after crossing Duck river, the whole army moved rapidly enough; but their pace was accelerated considerably when they heard the booming of the cannon on that Sunday morning. Poor fellows! many of them went into that fight on the heels of a four days' march of seventy-eight miles without a moment's rest.

But the most unaccountable; the very strange proceeding in Buell's management is embraced between the hour of his departure from the Tennessee Valley and his fight at Perryville, or Crab Orchard. "We are on a retreat," said a Captain of infantry, as we were preparing to march from the town of Pelham, at the foot of the Cumberland mountains. The Captain spoke contemptuously, and a general laugh was raised by the words. A tall, stern figure riding close by, stopped abruptly. "Put that man under arrest, *instantly!*" said Gen. Buell, and rode on with compressed lips and a red face. "Very well," retorted the Captain, as he handed up his sword deliberately, looking after the General. "we'll call it a change of base; but I'd a d—d sight rather fight." A sentiment that was echoed by every man there. "Why don't we fight? The Lord knows we've trotted after them long enough. I say fight!" "Here too!" "and here!" "Gentlemen," exclaims one intense wag, "don't you know we might possibly hurt somebody, and the object at present seems to be to test the *legs* instead of the *arms* of the service. Just when we think the General means business, he drives us in a pen, puts up the bars and everybody goes to pasture; we are either in pasture or on the trot, and of the two, I believe I prefer the pasture." "Silence!" exclaims the Colonel of the regiment, approaching; but the moment he turns away a smile breaks over his face, as he exclaims aloud, "the Corporal understands the General's policy as well as anybody." I solemnly believe he did. In all that army you could not have found a corporal's guard who would vote for marching in preference to fight.

It will not be difficult to amagine the bitter thoughts of the men and officers in that neck and neck race, where the whole army breathed the same dust the second time as they retraced their steps to Louisville, some from Tullahoma, some from Tracy City, some from Altamont, scarce twenty miles from Chattanooga. No wonder the army was dissatisfied. No wonder it grumbled and chafed under the restraint of its leader. Search the history of the world, you will find nothing similar to that rapid march of two armies on almost parallel lines. And then, on the heels of the declaration to the men, "We have got the poor fools now where we want them—see how we will *bag* them," the rebel Generals move off quietly, and the moment Buell stretched out his left leg in pursuit, turned around deliberately and boxed his ears.

Will any Court of Inquiry explain the General's apathy who permitted all this? or can it excuse him for his cold reply to an aid who begged succor for his general? After listening at his tent door, "I do no hear any firing, Captain Davis," when hundreds of brave men poured out their heart's blood not five miles distant, and all to no purpose. What strange spell bound his faculties? Will it ever be made known to us; or is it a fact, as has been intimated in the Army of the Cumberland, that in stripping Buell of his great reputation, some of his Division Generals would suffer equally as bad?

What of the stories of his guarding the property of known secessionists, and denying his troops the right to *purchase* the vegetables they incessantly craved, and which could not be furnished them by quartermasters or commissaries? What of the tales so often repeated of his punishment of officers for aiding and harboring runaway slaves? And why did he put off to the last moment his obedience to the orders of the War Department, to subsist his troops in the country in which they were operating? No one can blame him for sharing the spoils of the enemy; many *have* blamed him for assisting them to *remove* their goods and chattels to a southern refuge.

General Buell, we must all admit, was *a miserable failure*. Either his heart was not in the struggle, as it should have been, or his work overbalanced his capacity, and the best we can do is to give him the benefit of our doubts. The photographs we have Gen. Buell are true to the life, and render any further description of his face unnecessary. A trifle above medium height, with a commanding figure, straight, compact, and thoroughly soldierly in his appearance, with a remarkable head and face, a very penetrating blue eye, and intellectual features, no one would fail to remark Gen. Buell. In his walk, and in the saddle, he betrays the thoroughly drilled soldier; no man rides *harder*, no man rides *better*, or more gracefully than Gen. Buell. He is unapproachable on horsebrek. Neither can any man study his countenance without feeling that he is a man of dauntless courage, resolution, and tireless energy. But we are told that appearances are sometimes deceiving.

WE want the Constitution as we had it before the rebellion. If we are to have "a new edition amended and improved," we prefer that the amendments and improvements shall be made in the calm and quiet of peace, and not in the midst of the wild and fierce agitations of war.

From the South.

NEW YORK, Oct. 9.—A Washington dispatch to the *Herald* says that by the latest private advices from the South it appears that Bragg's army has been reinforced since the battle of Chicamauga by the following troops: One division from Richmond, commanded by General Arnold Elsy, one from Western Virginia commanded by Gen. Sam. Jones: one from Petersburg and Weldon, commanded by Gen, Ransom; three brigades from Florida, commanded by Gen. Howell Cobb, and three famous batteries from Lee's army, viz.: Cutts', Blodgett's and Walton's.

In addition Bragg has his original army, consisting of D. H. Hill and Polk's corps, besides four divisions from Mississippi and Alabama, one division from Charleston, one division of Georgia State troops under Gen. Walker, one division from East Tennessee, seven divisions from Lee's army, Georgia State Militia under Gen. Wayne, 5,000 cavalry under Gen. Pillow, 15,000 cavalry under Gen. Wheeler, and three pieces of artillery. His whole force is estimated at 170,000.

It is now represented that Joe Johnson's reserve at Rome, Resaca, Kingston, Cartersville and Etown Bridge numbers 55,000.

The *Herald* has the following special:

NASHVILLE, October 8.—Up to this time we have no news of especial importance regarding the doings of either our own forces or those of the enemy in the neighborhood of Chattanooga. Railroad communication has not been resumed, the damage being greater than was at first supposed.

Information has been received which goes to show that the enemy has divided his mounted force, which was engaged in the recent raid, into several detachments, and these again into minor ones, and that such detached bands now infest the mountains and woods in this neighborhood, thereby rendering common road travel dangerous to other than strong military commands.

Telegraphic communication was still interrupted to-day between here and Stevenson, Ala. It will be OK again to-night.

I saw a gentleman to-day who was made prisoner by the rebel forces when they were in the neighborhood of Murfreesboro. He says the rebels intended to reach our railroad lines some two days sooner than they did, but owing to unforeseen causes and detentions, incident to moving their artillery, tney were delayed, and had at last to make extra efforts to get up in time to cause the movement to be a surprise, and effect their object.

He also says the rebels admitted having failed to carry out to full success their main design, and they destroyed railroads and bridges as much to protect their retreat and for the sake of doing some mischief, as they did from any consideration of interierence with Rosecrans' supplies or reinforcements.

A *World's* special, dated the 8th, says the Government is once more in communication with Rosecrans. Gen. Hooker was near Murfreesboro when Wheeler made his raid.

Communication is about fully restored, and everything will go forward as usual.

HEADQUARTERS ARMY OF THE POTOMAC, Oct. 8.—During the last 24 hours there has been indications of a collision between the two armies, but I doubt if any will speedily occur. Our forces now at the front thought yesterday and night before that there was danger of an attack, and made preparations to meet it, but quiet has prevailed since.

The report telegraphed to the press from Washington that a rebel brigade had occupied a position north of the Rapidan is incorrect. Our forces picket the entire north bank of the river to its confluence with the Rappahannock, and a single rebel brigade or division would necessarily bring on a conflict.

The army has been paid off to September 1st. The best feeling prevails, and re-enlistments for two years are going on rapidly, and fully two-thirds of the army of the Potomac will reenlist.

The following dispatch is from the Richmond *Examiner*, of the 6th inst.:

GORDONSVILLE, Oct. 3.—The report that Gen. Meade had sent two army corps to Rosecrans, and that the enemy were preparing to fall back, is contradicted. Our scouts say but one corps was sent to Rosecrans and there are no indications of the enemy falling back.

NEW YORK, Oct. 9.—The *Herald's* Washington dispatch says, notwithstanding the denial of the Washington press, it is a fact that for two months past the question of the settlement of the difficulties between the North and South has been under consideration in Washington and Richmond.

The *Tribune's* Washington special says the *Herald's* statement that peace propositions had been introduced in the Washington Cabinet is denied by the very highest authority.

The *Tribune* also says, if we trust intelligence from Richmond they are not only improving, on providing Bragg reinforcements, but are also sending him large seige material.

During the last two weeks guns of extraordinary size and range have been sent him, it is thought for the purpose of erecting batteries on Lookout Mountain, which is said to be in possession of the rebel advance guard. It was thought if these batteries reach Chattanooga, it would make the place untenable.

ST. LOUIS, Oct. 9—The *Democrat's* Leavenworth specials says, intelligence having reached Fort Scott of a threatened attack on Fort Smith, Gen. Blunt left the former post for the latter on Sunday last. The rebel Gen. Cobell with about 10,000 of Cooper's force crossed the Arkansas river, east of Fort Smith on the 1st, and joined Coffey at Crookin Prairie, Mo., determined to make a raid into Kansas or Missouri.

On the receipt of this information all the cavalry in the Kansas district and a battery were sent to Fort Scott.

A letter from Fort Scott dated the 7th says that Lieut. Tappau, of Blunt's staff, had arrived. He reports that all the staff and bodyguard had been captured; also the command under Lieut. Pond at Baxter's Spring. Blunt had got ten miles away, but it was uncertain whether he had escaped. The rebels are under Quantrell, Hunter and Gordon, and were moving towards Fort Scott. There was no danger of that post being taken, it being abundantly strong to resist attack.

WASHINGTON, October 9.—The Government has advices from Chattanooga to the 6th. On the 5th the rebel batteries opened on our position at a range of three and a quarter miles. A dispatch from Rosecrans' headquarters on the 6th, says not a man was injured by the rebel batteries yesterday.

Other dispatches reiterate the statement that the position of Rosecrans is impregnable. No official information of the rebel statement that two of Rosecrans' pontoon bridges over the Tennessee river had been swept away. Telegraphic communication has been restored between Nashville and Stevenson.

ST. LOUIS, October 9.—The *Democrat's* Vicksburg special of the 30th ult. says: Joe Johnston is at Canton, Mississippi, with 15,000 troops, his supposed design being to prevent reinforcements going to Rosecrans. Gen. Stephen D. Lee has 4,000 rebel cavalry near Vicksburg. Johnston says their victories are useless; they can crush Rosecrans before reinforcements reach him.

The Memphis-Atlanta *Appeal*, speaking of their success at Chattanooga, says: "We shall now be recognized; our securities will rise; and Vallandigham will be elected."

Gov. Yates, of Illinois, has appointed the last Thursday in November as a day of thanksgiving.

ST. LOUIS, Oct. 9.—Information has been received here of Coffie and Shelbly's raid in Central Missouri. From Warsaw they moved north east, with suspected design of striking the Pacific R. R. at Laramie Bridge, and burn that structure and destroy the road.

Gen. Grown, commanding the central district, was at Clinton, Henry county, yesterday, in pursuit of the rebels; also, a force moving up from Springfield and another from Lebanon, which will press the enemy so closely that they can hardly do much mischief.

Gen. Totten left here last night for Jefferson city to take command of a portion of the force intended to meet the rebels.

SNOW FELL Monday, in the region round about Indianapolis.

ELIZABETH CITY, North Carolina, was visited a few days since by one of our gunboats and shelled, considerable damage being done.

THE "FASHIONS" say tunic over-dresses in rich lace will be very popular the coming winter, and have been imported in charming patterns.

AN expedition of land and naval forces started from Fortress Monroe on Sunday afternoon. Its destination is unknown. Important results are expected from the success of the expedition.

THE Union State Convention of Delaware met yesterday at Dover, and nominated the Hon. N. B. SMITHERS, Secretary of State, for Congress, in the place of WM. TEMPLE, deceased.

THE LIGHTNING, since the invention of the telegraph, has become utterly demoralized. The amount of lying it has done is astounding. The thunder should dissolve partnership with it.

THE rebel Government talks of paying the soldiers liberally after the war. Its liberality reminds us of the poor fellow's will —"I have nothing; I owe everybody; the rest I give to the poor."

A SWORD is to be presented to General THOMAS. One would think that some other officers need swords more than he does. He seems to have a good one all along, and to have made good use of it.

THE New York *World* says that Mr. SEWARD, in his late circular, makes blunders in history. We should care very little how much the Administration blundered in quoting history if it wouldn't blunder in making it.

THE mighty reverberations of GILMORE's big guns that knocked down fort Sumpter have terribly agitated the nerves of a Mr. Bull (we believe his baptismal name is John), an old gentleman living three thousand miles off.

THEY say that a part of the shirt of MAHOMET was burnt during a late fire in Constantinople, whereat his followers are greatly grieved. We don't believe it. MAHOMET didn't wear any shirt. He was a rebel.

A MAN named Carter, a butcher in Memphis, recently shot and instantly killed a cotton broker of that city for alleged seduction of Carter's wife. Carter was arrested, but the public sympathy, the Memphis papers state, is with him.

A LETTER written from New Orleans says that General GRANT's injuries are so serious that it is probable he will never be able to take the field again. His breast bone is said to have been crushed, three ribs broken, and one side paralyzed, and his brain is thought to be affected by the concussion of the fall from his horse.

ABOUT a week since, a party of Colonel LAFAYETTE BAKER's rangers left Washington on a scout. They returned on Tuesday evening, and report having had several fights with WHITE's and MOSEBY's guerrillas. They succeeded in putting these rebel bands to flight in several places, and return with the loss of only one man.

THE WOUNDED AT CHICKAMAUGA.—Six thousand Federal wounded at the battle of Chickamauga have arrived at Nashville on their way to Louisville. About two thousand wounded still remain in the hospitals in the vicinity of Chattanooga. The Department of the Cumberland is amply supplied with medical aid and comfort for the wounded.

GEN. STEELE's army is now in quiet occupation ot the heart of Arkansas, with headquarters at Little Rock. Gen. DAVIDSON has returned from pursuit of the flying rebels. hoving followed them a distance of forty or fifty miles, and found their columns dispersing as they went along. The railway from Little Rock to Memphis is in operation from the former place to Duvall's Bluff, on White River. and probably before two weeks the iron horse will extend his trips to the Mississippi opposite Memphis.

GEN. SAXTON has issued an order affixing to all cotton raised in the Department of the South a *lien* in favor of the laborers upon the crop, to the full extent of the wages due them. This lien will follow the cotton, even into the hands of *bona fide* purchasers, so long as it remains in the department; and no one can ship cotton out of the department without leave from headquarters. Thus the freedmen will be entirely protected from attempts to wrong them.

ADMIRAL DAHLGREN writes in private letters that his health is very much better, anp he will be all right in a few days. "The work," he says, "has never taken the steel out of me." He disposes of one of the assertions of the rebel press as follows: "I see by the papers that the rebels not only declined my request to give up Sumter, but called the demand puerile and unbecoming, which is a lie outright. No such language was used. It is a poor effort of some of the chivalry to brag up their oozing spirits.

THE WASHINGTON CORRESPONDENT of the Philadelphia *Ledger* states that the Government has been advised of a startling proceeding now said to be in course of execution; but there are few willing to credit the same. The matter, in a few words, is, that a leading ship builder of New York is now (unknowingly, of course) constructing a couple of powerful vessels of war, ironclad, which are really intended for the French in the prosecution of their designs upon this continent. The vessels are represented as being ordered by a different power than France, and, if in reality for that power, there is nothing against their construction in an American yard; but it is more than whispered that these vessels are ultimately intended for LOUIS NAPOLEON, and proof of it would seem to appear in the not unfrequent suggestions that are made to the builders by French officers, purporting to act for the Italian Government.

Judge Sherwood's Speech.

The speech of Judge SHERWOOD at the Monongahela House, on Thursday evening, presented a view of the great rebellion such as our people have not been accustomed to listen to. Our cotemporaries of the press have generally acknowledged that the loyal Unionists of the South understood the great issue much better than it was possible for the people of the North to understand it, more especially on the breaking out of our civil war. This is undoubtedly the case. Men who have been accustomed to listen to the arguments of the secessionists of the South for years; who have listened to their revilement of the principles of democracy, and heard republican government denounced as a "failure," must have been alarmed into a more searching analysis of the motives of the secessionists than people at a distance.

Judge SHERWOOD does not rest his indictment against the traitors of the South upon conjecture. He arraigns their purpose to supersede republican government in the South, and draws his evidences from the conspirators themselves. Whilst he allows them to be the expositors of their own meaning, he takes their own acknowledged intentions as the proof of their conspiracy not only against the national unity, but against the principles of republican government also.

No one could listen to the arguments and evidences arrayed against the traitors by Judge SHERWOOD, without being forced to the conclusion that the masses of our countrymen of the North, as well as the masses of the non-slaveholders of the South are exempt from blame, and innocent of being the cause of the war. Judge SHERWOOD shows us clearly that the perpetuation of slavery was the mainspring of the rebellion; that in order to perpetuate it, slaveholders deemed it indispensable to separate from the North, and in conjunction with such separation to throw a monopoly of political power into the hands of slaveholders. Hence the cry, as expressed by Mr. GARNETT, of Virginia, that "slavery and Democracy were incompatible." Hence the declaration now common with the slaveholders, that "Republican government is a failure." Hence the teachings in DeBow's Review, that "an heriditary senate and executive are the political form best suited to the genius, and most expressive of the ideas of the South," Hence the delaration of the *Southern Literary Messenger*, that "it is necessaay to extinguish the last vestige of radical Democracy in the South, and to put back every attempt to make the government of the Confederacy a popular government." It becomes clearly apparent, from the line of reasoning on the part of the traitors, that we are fighting the same issue between democracy and aristocracy that our fathers fought in the Revlution.

The Brave Sigel

Delivered the very best address of the canvass on Thursday night, which was, like himself, strong and persuasive. Who, on hearing the honest soldier, but would adopt his views. "War," he says, "is not a plaything." True. If this had been the rule of conduct invariably, the rebellion would not have endured this long.

He says, "we want strong arms, strong hearts, and not leniency and weakness." How significantly this language condemns the civil and military in their gingerly deportment to "our erring sisters." While they have always been in dead earnest, our conduct has been weak and vacillating.

Oh, that the vim, skill and energy of Sigel had been shared by all our generals and military directors. It is not too late to infuse these elements, so essential to success, into our forces, with Sigel, Butler, Fremont, Rosecrans, Grant, Meade, Banks and Gilmore at their head.

THE WRONG MATERIAL.—There are some of our citizens who, by some strange fatality, have, in the inscrutable lottery of events, been located in a free land, to which their antecedents and bigoted and intolerant principles, tending only to despotism and oppression, disqualify them from enjoying, and from the discharge of those liberal and democratic duties required of them. When there is a question of *freedom and slaverg* presented to the minds of these men, their true affinities to the latter preclude any hope of their ranging on the liberal side. The fact is, they are fish out of water in a Republic, and their secret wish leads them to pursue a policy which, if it triumphs, will lead our once happy land into a despotism as galling as ever was exerted by a NERO or CALIGULA. Such men are not the proper material to perpetuate a Republic, but are destructives, hostile to liberal institutions, and which it were well we could weed out of the body politic.

A Neutral in War.

When our country is engaged in the fiercest and most desparate struggle known to history, there are some nondescripts, who under the most unaccountable promptings, profess to have no feeling or interest in it! WOODWARD, the copperhead candidate for Governor, is one of these pitiful wretches, so lost to all noble or patriotic incentives!

And yet our citizens are gravely called upon to place this traitor in power—this man so utterly insensible to all the motives actuating *a man* or *a patriot*.

Can it be possible that this appeal will be favorably responded to by the people of this State? Forbid it ye fates. Let not the funeral dirge of our Republic be rung in our agonized ears!

Rumored Propositions of Peace.

THE New York *Herald* of Thursday has editorial beginning os follows:

"We are in possession of the very important intelligence from Washington, and through a careful correspondent who has never deceived us in his information of passing events, that within the last few days propositions of peace have been introduced to the consideration of the Cabinet. What these propositions are we are not yet permitted to know, nor whence they come. The only fact in the premises communicated is that peace propositions have been brought before the Cabinet; but from this single fact, in connection with the present reduced and hopeless condition of the rebellion, we are encouraged to anticipate the happiest and the most glorious results."

To Arms! To Arms!

THIS is the patriot's cry when his country is in danger. *Every true man* will respond at once to the call. Mark those men, citizens, who do not repeat the cry or respond favorably to it. Not only is the theatre of war in the ensanguined field, but it is also to be found in the exercise of the *elective franchise* at the polls.

The country calls upon her sons to rally in support of the Union ticket—let them never give up the contest until they have vanquished the Copperhead foe!

JUDGE GRIER ON PROPRIETY.—Judge GRIER's declaration, "that the Judiciary should not partake in active political warfare," was a well conceived thrust at WOODWARD for having appeared before and participated in several Democratic-Copperhead assemblages. We rather think the Judge intends quietly voting for that sterling patriot, DANIEL AGNEW, whose modest, though excellent traits of character, contrast so strikingly with the secession, blatant proclivities of WOODWARD.

THE Confederate Gen. WALKER, who was lately wounded in a duel in Arkansas with Gen. MARMADUKE, has since died.

THE team of horses to be presented to Gen. SICKLES consists of four splendid bays, all five-year olds.

The Post's Opinion of Woodward and Lowrie.

The Publishers of the *Morning Post*, the copperhead organ of Western Pennsylvania, thought they were doing a big thing, achieving a piece of grand political strategy, when, a few weeks ago, they compiled and published in pamphlet, for circulation among the people, certain articles which had appeared in the *Gazette*, reflecting on Gov. CURTIN. They unquestionably believed all of the sentiments and statements contained in those articles, else they would not have taken such extraordinary pains to give them such extended currency. Well, it is reasonable to suppose that if they considered one part of their publication correct, and entitled to credence, they must assuredly have regarded all that is therein stated to be facts, undeniable truths. This hypothesis being fair, under the circumstances, we shall now proceed to note, that in their pamphlet, on page 4, they declare, "*that the judicial investigation of the Frowenfeld shoddy case proved a failure in consequence of the arbitrary and extraordinary intervention of Chief Justice* LOWRIE," and on the following page they continue to remark, in relation to the same affair, that the case was one "*of a failure of justice, occasioned by the interference of Judge Lowrie.*" We notice, likewise, on page 21, they endorse "*that Lowrie and Woodward, because of disastrous decisions and acts of high handed tyranny, which have exasperated and inflamed the people to an inappreciable degree, will both prove weak and vulnerable beyond any other men in the State, if the advantage is properly used.*"

Now, it is fair to ask, what does ail this mean; and besides, we inquire of all good, loyal citizens, Democrats or what not, how can you vote for WOODWARD and LOWRIE, in face of the published and sanctioned opinion, given of them by the *Post*, their own organ and mouth-piece?

WOODWARD and LOWRIE's rottenness was too much even for the unscrupulous *Post* to swallow; and in giving, what they thought, was a political portrait of CURTIN, they could not resist the temptation and opportunity offering, to give vent to their own feelings, and give their candidates a sly dig. Well might WOODWARD and LOWRIE exclaim "save us from our friends!"

[Communicated.]

ASTOUNDING FACT.—We are informed by one of the most extensive iron manufacturers in Western Pennsylvania, that on a recent visit to New York—he had business with an agency of a British iron company—that in conversation, he was asked which of the candidates were likely to be elected in Pennsylvania. He replied he thought the chances favored the re-election of Gov. CURTIN. Where is the capital of your firm held, in this country or England? He replied, *all* in this country. Ah, then, said the British agent, I can understand your reason for preferring Mr. CURTIN. It is *our* interest to *defeat* him. Our informant replied that he thought it improbable, nor did he exactly perceive any reason, a resident of New York and a British subject, for his interference. That if Governor CURTIN was defeated *no party* in this country dare advocate a division of the Union. If you are correct in your opinions, then I have made a fool of myself, for I have subscribed $5,000 to aid in carrying Pennsylvania. British gold and British influence, so it seems, are to be used against the true friends of Government. Freemen and working men, you will rebuke this impudent attempt to influence your election. ARMSTRONG.

THE Memphis *Journal* learns that the cotton has been killed by the late frosts, and that the yield will not, in West Tennessee, exceed one-fourth of what is usual. Add to this the fact that a very small breadth of land has been planted, and we deduce a very limited supply of cotton. It is correct to suppose that the blight that destroyed the young bolls in West Tennessee has ruined the crops in North Carolina, Albama, Mississippi and Arkansas.

Two bread riots or rather two no-bread riots have taken place in Mobile, both got up and conducted by the women who raged to and fro like female tigers. It is deeply painful to record such things as happening even in the land of the rebellion. And yet we cannot but think of retribution when the female lips that have been so long howling fiercely for the rebellion are at last howling no less fiercely for food.

THE Fourth Annual Fair of the Breckinridge, Hancock, Grayson and Perry County Agricultural and Mechanical Association will convene on the 20th inst., at Cloverport, and continue three days.

COUNTERFEITS on the Exchange Bank of Greencastle and on the Bank of Goshen are being circulated extensivhly in Indiana; also ones raised to tens on the Bank of Corydon. All the above are Indiana free banks.

GALE AT BUFFALO.—A terrible gale commenced at Buffalo, N. Y., on Saturday night. The schooner Ruby, from Toledo for that port, with 5,330 bushels of wheat, was sunk at the mouth of the harbor. Her cargo is a total loss; the vessel will be raised. The schooner Great Western, of Canada, is ashore in Lake Ontario, near Presque Isle.

JAMES G. BARRET was on Tuesday evening nominated by acclamation as the Union candidate for Mayor of Newark, N. J.

One hundred horses are entered for the first regular race meeting in St. Louis on October 12. The races will continues six days.

The rebel Brigadier General Gideon J. Pillow is superintendent of the Bureau of Conscription at Marietta, Ga.

It would be honorable indeed to our Union women if they exhibited as much sympathy for the Union wounded arriving here as the rebel women do for the rebel prisoners, wounded and unwounded.

EXPORTS OF ICE.—Six thousand six hundred and sixty-five tons of ice were exported from Boston during the month of September, of which 2,344 tons were for army uses. The total exports for the year from Boston amount to 58,794 tons against 52,542 during the same period in 1862.

WISH TO COME BACK.—Jefferson county, in the Valley, and in the Southwest, Washington, Pulaski, Wythe, Tazewell, Russell, Scott, Buchanan and Wise counties, have petitioned to be admitted into the State of West Virginia. Their application is now before the Legislature at Wheeling for its decision.

☞ **UNION MASS MEETINGS.**

UNION STATE CENTRAL COMMITTEE ROOMS,
Commonwealth Buildings, 611 Chesnut st.,
PHILADELPHIA, Sept. 9, 1863.

Governor CURTIN, in company with distinguished orators from adjoining States, will address the people of Pennsylvania at the times and places named in the following schedule:

At PHILADELPHIA, SATURDAY, October 10th.

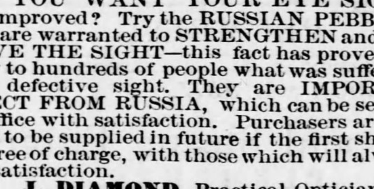
We have reasonable hopes of having in the pending canvass the aid of

Governor JOHNSON, of Tennessee.
Governor PIERPONT, of Virginia.
Governor BRADFORD, of Maryland.
JOHN BROUGH, the next Governor, of Ohio.
Hon. D. S. DICKINSON, of New York.
Gen. LOGAN, of Illinois.
Gen. BUTLER, of Massachusetts.

And many other distinguished gentlemen, including many eloquent advocates of the Union cause in Pennsylvania. No possible efforts will be spared to secure as full and thorough a discussion of the momentous issues now submitted to the people as the brief period now remaining will allow, and it is enjoined upon all friends of the Union cause to secure the attendance of their fellow-citizens upon the occasion.

WAYNE McVEAGH, Chairman.
GEO. W. HAMMERSLEY, W. W. HAYS, Sectaries. se13

GREAT IMPROVEMENT ON THE EYE SIGHT.



The Russian Pebble Spectacles.

DO YOU WANT YOUR EYE SIGHT improved? Try the RUSSIAN PEBBLES. They are warranted to STRENGTHEN and IMPROVE THE SIGHT—this fact has proved already to hundreds of people what was suffering from defective sight. They are IMPORTED DIRECT FROM RUSSIA, which can be seen at my office with satisfaction. Purchasers are entitled to be supplied in future if the first should fail, free of charge, with those which will always give satisfaction.

☞ STOCKHOLDERS' MEETING.—The stockholders of the Commercial Printing Company will hold a meeting on MONDAY EVENING, October 12, at 7½ o'clock, at the Office of the Company, 72 and 74 Fifth street, for the purpose of effecting a permanent organization, and the selection of directors for the company to serve for the ensuing year.

Caned by a Friend.—We are informed that James Rees, Esq., our noted engine builder, has been presented with a very elegantly mounted cane. We wish that some friend would cane us in the same way.

The Robert Armstrong reported in the *Commercial* is not Robert Armstrong of the Citizens' Bank. To those who are acquainted with our friend Robert this explanation will appear unnecessary.

Left for Eirie.—Gen. Franz Sigel left for Erie this morning. Argobast's cornet band accompanied him to the depot, with a large number of our citizens. The General takes with him the good wishes of this community.

Fully Committed.—John R. Forrest and his wife, after an examination before Commissioner Bailey, charged with robbing the mail at Perrine Postoffice, Mercer county, have been committed for trial at the next term of the United States Court.

Johnstown Convention.—Our city and county will send a large delegation to the Union Convention to be held at Johnstown today. Those expecting to go are advised to be on hand at the hour designated, as the train will start at 8 o'clock this morning precisely.

We notice among the names of those who were awarded diplomas at the Harrisburg International Agricultural Exhibition that of our friends Hall & Speer, of this city. This firm generally manage to get a premium wherever they exhibit, which speaks well for their skill and enterprise as manufacturers.

Naval Cadets.—The examination of applicants for admission to the Naval Academy has just closed, and the following have been admitted from Pennsylvania: J. C. Muhlenberg, Wm. Little, W. F. Groundie, Fred. Haines, J. W. Hageman, Albert Ross, C. A. Weidman, Richard Bush, W. B. H. Frailey, Jno. Wissimer, C. R. Wilson, L. S. Woodruff and R. P. Ganea.

Church Dedication.—Thee cremony of laying the corner stone of St. Stephen's Church, Sewickley, will be performed to-morrow by the Rev. Dr. Page, of Allegheny city, who will also deliver an appropriate address. The service to commence at 2 o'clock. Persons desirous of being in attendance can take the cars at the Allegheny Depot at 12 o'clock, noon, and return by the 4 o'clock train.

Pittsburghers in Philadelphia.—The following Pittsburghers were registered at Philadelphia hotels on Wednesday:—Mrs. J. H. Shoenberger, Mrs. J. C. Blair and two children, Hon. P. C. Shannon, G. T. McCormick, Henry A. Breed, Miss Sellers, Mrs. R. Moody, J. Hamill, M. Clary, R. Rudeer.

In Washington City: Mr. and Mrs. Schenley and three daughters.

Prof. Cohen To-Night.—Our citizens should not forget that Prof. Cohen, the Principal of the Hebrew School, will speak to-night at Wilkins Hall. Everybody is invited to attend and hear him. We can assure our fellow-citizens that no more eloquent man addressed them during this campaign than Prof. Cohen, and the gentleman's great talents, as well as his patriotism, entitle him to a full audience. Union men, turn out.

What Does it Mean?—We are credibly informed that, notwithstanding the *Post* gave a fair statement of the grand reception given to Major General Sigel in their edition intended for city circulation, they sent their paper to the country with the notice suppressed. Were they afraid to treat their country friends with an account of a demonstration unequalled since the Harrison campaign? Were they afraid it would prove a "stunner" to their hopes of success?

Death of an Old Citizen.—We are pained to have to announce the death of Mr. Francis R. Dravo, one of our oldest business men and well known citizens. Mr. Dravo was a native of this city, and at the time of his death was in the fifty-sixth year of his age. He was characterized by his unceasing energy and integrity in business, and was most extensively known for his great urbanity in his dealings with the public. No man more honored for all those virtues that make the good citizen has gone to his rest than Frank Dravo.

Criminal Court Proceedings.—In the case of the Commonwenlth against John Grant and others, charged with assault and battery, the jury found a verdict of guilty. A motion was immediately made in arrest of judgment, when District Attorney Kirkpatrick asked for sentence. Counsel for defendants contended that there were mitigating circumstances as to two of the defendants, and asked the Court to postpone the hearing of the case until Saturday week, which was granted.

The following patents have been issued from the United States Patent Office for the week ending October 6, 1863.

Charles A. Hardy, of Pittsburgh, Pa., for improvements in oil stills. Ante-dated September 25, 1863.

Peter Schildecker, of Pittsburgh, Pa., for improved egg beater.

James Adair, Pittsburgh, Pa., for improvement in lamps. Patented July 1, 1860. Re-issued.

Wilkins Hall.—A great gathering assembled in Wilkins Hall, last night, to hear the great apostle of liberty in Kansas, General Jim. Lane. There was no announcement that Gen. Lane was in the city, yet the knowledge of his being present at the Club Room spread like wildfire, and Wilkins Hall was crowded. He made a most patriotic speech, and his remarks were enthutiastically received. Judge Sherwood, of Texas, followed General Lane, and gave the people an insight to the cause and protraction of the rebellion. The meeting was quite enthusiastic.

Burglary in Brighton.—The tailor shop of J. L. Blackmore was entered on Monday night, and everything of value taken except the sewing machine. The thieves entered the front door by means of a false key, lit a sperm candle, and, as would seem, done their work very deliberately. Mr. Blackmore had four or five new garments made up—one coat worth $25, and a quantity of un-made material. All of this, as well as silk, thread, needles, &c., and even the clock which hung in the shop were taken. They then passed into the room occupied by James Fowler as a barber shop, and stole his best razors and some other things.

The Republican Meeting at Noblestown.—An exceedingly enthusiastic meeting of Republicans was held at Noblestown yesterday. The number in attendance is estimated at two thousand. The utmost good feeling prevailed, and every one present felt stimulated to keep alive the good work going on for Curtin and Agnew. Speeches were made by General Moorhead, Colonel Bayne, and our worthy candidate for Sheriff, Captain John H. Stewart. The speakers were listened to with marked attention, and often interrupted with loud applause, the audience fully appreciating the noble sentiments uttered. The meeting, on adjourning, gave three cheers for Curtin and Agnew.

Well Deserved Compliment.—On Thursday evening last, the teachers connected with the Sabbath School of the United Presbyterian Church, (Dr. Clarke's) Manchester, assembled at the residence of the Superintendent. The occasion of the meeting was the contemplated departure in a few days of Miss Henrietta Lee, as a Teacher of the Freedmen of the South. Her associates had provided a handsome and costly writing desk, completely furnished, which was presented by them as a token of their regard for her as a Christian lady, and their appreciation of her fidelity and success as a teacher. Miss Lee is highly educated and accomplished, and is withal deeply imbued with a love of freedom, and sympathy for the colored race. She carries with her to the sunny South the good wishes of her many friends in Manchester, who will always rejoice to hear of her prosperity.

The Sigel Meeting at Concert Hall.

AT an early hour last night the spacious Concert Hall was filled with our German fellow citizens to hear their distinguished countryman, Gen. Franz Sigel. The crowd of Saxons who attempted to gain admission to the Hall were sadly disappointed, for our Teutonic friends turned out in such strength as to exclude all other nationalities. The meeting was organized by the selection of the following officers: President—Rev. J. G. Kredel. Vice Presidents—G. Porzell, K. Rebele, P. Kolbecker, H.B. Biehlmann, A. Aruntz, H. Pendrich, J. Gangwirth, C. Gang. C. S. Bauer, H. Anschutz, Nich. Voeghtly, C. Fischer, J. Nusser, August Amon, W. Mitentzwy. L. Benz. Secretaries—S. Hartmann, Sigismund Low.

After the organization Gen. Sigel was introduced to the audience amidst the most vociferous cheers. He spoke for upwards of an hour in his mother tongue, and judging from the applause he received, we should say his remarks met with a warm response from the people present.

The Sigel Festival.

Our German fellow-citizens last night, after the meeting at Concert Hall, entertained Gen. Sigel with a supper at the Athenaeum. As we were invited guests, we can speak the truth when we say that we have never sat down to a more elegant repast. General Sigel occupied the head of the board, supported on the right by Ex-Governor Johnston, and on the left by Mayor Sawyer. After the cloth had been removed, Gen. Sigel returned his thanks to his fellow-countrymen and citizens for the honor they had done him, and concluded by paying a compliment to our worthy chief magistrate. In response to repeated calls, his honor, the Mayor, replied to the sentiment enunciated by Gen. Sigel, and in a few neat and very appropriate remarks, complimented his fellow-citizens for the order preserved during the past two days. Mayor Sawyer concluded his remarks by a very appropriate reference to the services of the distinguished guest. Ex-Governor Johnston next addressed the assemblage in one of his happiest efforts, and paid a glowing tribute to the patriotism of our German fellow citizens. We left at an early hour, and the festival was still being enjoyed by a large number of guests.

The Sanitary Committee received the following important telegrams last evening:

LOUISVILLE, Oct. 9, 1863.

The Medical Director has obtained the full number of surgeons needed for the present emergency.

Three of our surgeons, captured and paroled, arrived at Nashville last night. They report thirty-nine wagon loads of our stores burned by the rebels. J. S. NEWBERRY,
Secretary U. S. Sanitary Commission for Western Department.

The call for surgeons recently made by the Committee of this city is therefore withdrawn, and an urgent appeal is made to the public for supplies of hospital clothing and food to be sent immediately to the front. If loss is sustained by reason of the promptness with which stores were pushed forward to relieve the sufferers by the last great battle, the remedy we have is simply to repair the deficiency by further donations. The demand for warm clothing, for dried fruit and fresh vegetables is very great, and during the active movements now progressing, the want of these articles must be vastly increased. *Now* is the time to act promptly in anticipation of the great battles to which we are looking forward. The Sanitary Committee expects to make a valuable shipment to Nashville in charge of a special agent early next week.

A Grand Display.—While peering along Wood street the other day, our attention was attracted by the most splendid exhibition of ladies' and misses' furs we have ever witnessed, in one of those magnificent windows that adorn the extensive hat, cap and fur house, kept by Wm. Fleming, No. 139 Wood street. One thing that was especially worthy of notice in this establishment, that whilst there was an abundant display of all the finer grades of rare and valuable ladies' furs, sufficient to satisfy the taste of the most fastidious, there were an endless variety of the cheaper grades, from which those of economical disposition or limited means may supply themselves with complete setts of the most fashionable and comfortable furs. We also say of the proprietor of this establishment, that he is a practical master of the hat, cap and fur trade, and that we are informed that a large proportion of his furs this season are of his own manufacture. We advise those wanting anything in his line to call and examine his stock before purchasing elsewhere.

For Sunday Reading call at Pittock's, opposite the Post-office, and supply yourselves with the latest Eastern periodicals.

New Paper.—We have received the first number of a new Union paper, called the *Journal*, published at Brownsville. It is rather a neat affair, and warmly supports the Union ticket.

Public Amusements.

THEATRE.—The Ghost will appear again to-night. This announcement is sufficient to fill the house.

ANDERSON gives his last entertainment in magic to-night at Masonic Hall. He will give a matinee this afternoon at two o'clock.

"Daily Commercial" Job Printing Office.—Orders for every style of Book and Job printing promptly and neatly executed, from a visiting card up to a mammoth poster. The most rapid and improved steam presses are used in the execution of the work.

Grover & Baker's Sewing Machines, for family and manufacturing purposes, are the best in use. A. F. CHATTONY, General Agent,
No, 18 Fifth street.

Type Metal for Sale.—About 600 pounds of type metal for sale at the office of the "Freedom's Friend and Courier," (German,) No. 72 and 74 Fifth street. oc7:3t

Address of tae Union State Central Committee.

To the Loyal Men of Pennsylvania:

The great political canvass, which for the past six weeks has been agitating our entire Commonwealth, is rapidly drawing to its close. It differs from all which have preceded it in the fact that the people have fully appreciated their own interest in it, and, rising to the transcendant importance of its issues, have labored with unexampled zeal and sacrifice to secure a verdict which shall attest, in emphatic tones, the loyalty of our native State to the Union of our fathers.

This committee has not been idle, but its labors would have been ineffectual if it had not received the generous confidence and assistance so constantly accorded to it. The results of our combined efforts have secured a comparatively thorough county and township canvass; a full and fair discussion of the issues by able speakers in almost every school district in the State; the distribution of documents in English and German, sufficient in number to reach nearly all the voters of the Commonwealth, exhibiting most clearly the sophisms and subterfuges of the men who endeavor to aid the rebellion by distracting and dividing us; numerous mass conventions of the people, who have listened with equal benefit and delight to the distinguished orators, statesmen and soldiers from our sister States and our own; and crowning all, the people coming forward in their might to do honor to a tried public servant, have made Governor Curtin's own canvass one grand, triumphal progress and ovation from Erie to the Delaware.

These efforts cannot have been in vain, and it would be idle to deny that the signs are all propitious. But it would be a high crime against God and humanity for any loyal man, because of these signs, to relax a single effort, or fail to use a single honest agency, to make the victory sure and conclusive.

In the beginning of the contest, the enemies of the government in this State distinctly announced their principles and their policy. They republished the address of Judge Woodward, avowing the right of secession. They republished the pamphlet of Bishop Hopkins, avowing the divinity of slavery. Upon these two principles they have conducted their canvass. Their candidate for Governor has been charged with announcing the corollaries of these principles many times and to different persons. Merchants of high standing, eminent members of his own profession, representatives in Congress, and even the reverend clergy, have attested over their own signatures in the public prints the utterance by Judge Woodward of doctrines fatal alike to the honor of American freemen and to the integrity of the American Union.

To these accusations, involving his opinions upon questions affecting the lives, the liberties, and the property of every citizen of Pennsylvania, he replies to a high spirited people that he will announce his views upon these subjects after the election. Judge Woodward has misread our political history if he imagines that he can thus trifle with a free constituency, who are entitled to know the opinions of all men who desire office before, and not after, voters are asked to elevate them to high places of power and responsibility.

Fortunately, however, the proof is conclusive, as well in regard to his own sentiments as to the sentiments of the party he represents. The question is distinctly presented to every voter—whether he is for the Union or against it. If the issue is intelligently comprehended, the answer cannot be doubtful. The Federal arch new spans the continent, resting on Maine and on California, and its Keystone will prove itself as sound and as firm as its eastern and its western corner.

In the closing days of the campaign our good cause will be assailed by all manner of evil agencies. The metropolis is already crowded with men who purpose to cast illegal votes. Falsehoods of all hues will be started on their travels, and will increase as they go. Taxes will be named to the avaricious, the draft to the cowardly, and all men will be urged to walk in those paths of peace which lead only to our individual disgrace and our national destruction. In the last extremity, larger supplies of foreign gold will not be spared to destroy the liberties of America. To all these means we can only oppose our untried energy, sparing no efforts to bring all loyal voters to the polls, our continued devotion to the cause, resisting all attempts to thwart a fair expression of the popular will, and our prayers to Heaven.

Thus strengthened, we move forward to the remaining days of the conflict, and while our heroic soldiers in the field are striving to end the rebellion in arms at the south, let us strive to end the rebellion in sympathy at the north, and thus, by our united labors, secure a lasting triumph to the cause of the Union and republican liberty.

If we are actuated by this spirit we can not fail; for with us are the hopes of human progress, the strength of truth and justice, the resistless impulses of civilization, the unconquerable energies of freedom, and, if we are worthy, the blessing of Almighty God.

In behalf of the Union State Central Committee,
WAYNE McVEAGH, Chairman.
Philadelphia, Oct. 8th, 1863.

THE Souhegan Bank at Milford, N. H., was broken open on Saturday night and bonds to the value of $9,000, notes worth $3,000, and $1,000 in bills were taken. A reward of $1,000 is offered for the arrest and conviction of the rogues.

FINANCE AND TRADE.

FOR additional Commercial and Financial Matters see fourth page.

The money market in New York was easy at 6@7; the chief business at the inside figure. Sterling firmer, and closes dull, at 161@162. Gold firmer, opening at 46¼, advancing to 47⅛ and closing firm at 47.

PHILADELPHIA, Oct. 9.—Jay Cooke, Subscription Agent, reports the sale of $1,725,700 5-20s on Friday, and the sales for the week will probably reach $10,000.000, The large European orders which are daily arriving, render it of the highest importance to those who contemplate using these bonds as an investment, or as a basis for banking, that orders should be promptly forwarded and filled.

The Eastern cities and towns are subscribing largely in this view, and for the purposes above stated, and it is hoped that the West will also respond as generously as in the early part of the year. Active and efficient agents are about to canvass the several Western States, to explain the organization and working of National banking associations, many of which are in contemplation. and only await the thorough understanding of the process.

Mr. Cooke's pamphlet divests the system of every difficulty, as all questions which might arise are plainly answered, and full explanations given. The first edition is already exhausted, and the second is in press and will be ready for distribution in a few days.

PHILALELPHIA, October 9.—The subscription agent reports the sale of $1,775,705 in 5-20's today. Deliveries of bonds are being made to the 6th inst.

PITTSBURGH GENERAL MARKET.

OFFICE OF THE DAILY COMMERCIAL, }
Friday, October 10. }

BUSINESS yesterday was not very active. The high rates of the leading articles has put a damper on trade generally. The weather continues threatening; it looks, however, as if the rain had blown over for the present. Our rivers continue too low for navigable purposes. We still hold on to the opinion that navigation will be resumed during the coming week. The receipts of produce continues light; all that is wanting to open up trade generally is a good stage of water. We notice that several of our new steamers have hauled up to the landing in anticipation of a rise.

BUTTER—The demand is improving under light receipts. We note sales of 1,000 lbs fresh roll at 21@22c. Other sales were made at lower rates.

CHEESE—There was a good local demand for this article, principally for lots of 25 to 50 boxes. The current rates were 12½@13c.

EGGS—The receipts have fallen off. Dealers were firm at 15@16c.

FEED—The market was firm under a good demand. We note regular sales of

Bran, at $1 20@1 25 per cwt.
Shorts—$1 40@1 50.
Middlings—$1 55@1 60.

FLOUR—The market yesterday was inactive; buyers took hold very sparingly. The late advance having interfered with their calculations holders who have made late purchases say that figures are bound to go up. The stock in this market is not large; among the sales we note as fol ows:

Extra—90 bbls from store at $5 37@5 50; 120 bbls same figures.

Extra Family—150 bbls at $6 25@6 50; same dealers holding out for $6 60.

Fancy brands were disposed of at higher figures.

HAY—The transactions in this article were limited. We note sales of 10 loads at $32@34 ₰ ton.

APPLES—The receipts have fallen off. Prices are a shade better. We note sales of 125 bbls at $1 75@2 50 per bbl.

GRAIN—The market was very firm, with a good demand for home use and for export. The stock in first hands is very light; prices, however, have undergone no change. We omit quotations.

SALT—Market very firm, with a steady demand at $2 50 per bbl.

BACON.—The market was firm, with a regular trade demand. The stock on hand is rapidly disappearing, and will soon be numbered among the things that were. We note sales of lots ranging from 3 to 5,000 lbs, at the following figures:

S. C. Hams—14@15c.
Sides—Ribbed, 6½c.
Clear—7½c.
Shoulders—6¼@6½c, as ₰ quality.

GROCERIRS—Holders continue firm and are doing a liberal business. Prices during the week have materially advanced, especially in sugars and molasses. Coffee is also looking up. Among the sales were—

Sugars—14 hhd Orleans at 13@13¾c.
Coffee—Very active; sales of 40 sacks Rio at 34c. Prices looking up.
Molasses—Sales of 40 bbls old Orleans at 60@61c. Sales of new at 63c.

PITTSBURGH OIL MARKETS.

OFFICE OF THE DAILY COMMERCIAL, }
Saturday, October 10. }

Business was dull yesterday. In fact, there was nothing done worthy of notice. Buyers were shy, and holders were not disposed to make the concession that buyers required. Hence we have no operations to report. In a few days matters will no doubt brighten up.

Crude—The stock in first hands is very light, as buyers and sellers are apart in their views. There was nothing done worth noting. The news from the East reports a dull market, the various kinds being neglected.

Other descriptions of oil were quiet. In fact, it looks as if the oil business had quit until after the election.

Chicago Market.

There was a good attendance on Change today, and the Grain markets were active and firmer, and higher prices were realized on wheat, corn, oats, rye and barley—the markets closing firm.

In flour there was but little demand, and the market was dull and heavy. The scarcity of freight room and the advance in freights, noted in our last report, together with the noted decline in prices at New York, checked the demand, and the reported sales were light, without decided change in prices. Most of the sales were on private terms.

The Wheat market opened firmer and prices were better—sellers finding it easy to realize the outside prices paid yesterday. After the advices from New York were received the market was easier—closing at $1 02@1 02¼ for No 2 spring. and $1 05@1 05½ for No 1 spring. The sales were fair at $1 08 for No 2 red; $1@1 01 for rejected red; $1 05@1 06 for No 1 spring; $1 02@1 03 for No 2 spring, and 98@97½c for rejected spring—all in store.

Corn was firmer, and the market was active at higher prices by 1@2c ₰ bu. The sales were at 76@78c for No 1, and 75¼@78c for No 2 in store—the market closing firm.

Oats were buoyant and firm—prices advancing 1@2c ₰ bu, with liberal sales at the range of 57@58½c for No 1, and 57@57½c for No 2 in store—closing firm.

Rye was buoyant and firmer—prices advancing 4@5c ₰ bu, closing firm at 91c. The sales were at the range of 87@92c for No 1, and 84@85c for No 2 in store.

Barley was firmer and 1@2c better, the bulk of the sales of No 2 being made at $1 10 in store—the market closing firm.

Highwines were active and firm at 53c, with liberal sales at that price.

FLOUR AND GRAIN.—The quantity of flour, wheat, corn and barley left at tidewater, New York, during the fourth week in Sept., in the years 1862 and 1863, was as follows:

	Flour, bbls.	Wheat, bush.	Corn, bush.	Barley, bush.
1862,	19,800	1,428,000	1,234,500	20,400
1863,	31,300	496,500	1,076,400	137,200
	Dec. 11,500	Dec 931,500	Dec 159,100	Inc 116,800

The aggregate quantity of the same articles left at tidewater from the commencement of navigation to Sept. 30, inclusive, during the years 1862 and 1863 was as follows:

	Flour, bbls.	Wheat, bush.	Corn, bush.	Barley bush.
1862,	936,100	21,161,300	15,038,400	442,900
1863,	848,600	12,197,300	18,313,100	255,000
	Dec. 87,500	Dec 8,964,000	Inc 3,274,700	Dec 187,900

By reducing the Wheat to Flour, the quantity of the latter left at tidewater this year, compared with the corresponding period of last year, shows a deficiency equal to 1,880,300 bbls Flour.

Baltimore Market---Oct. 9th.

Coffee—We notice a moderate inquiry for Rio and a very firm market. Common to strictly prime lots are now held at 31@33½ cts. per lb.

Flour—Receipts of Howard street and Ohio Flour continue very light, and the tendency of prices, with only a moderate inquiry for both trade and shipping brands, is decidedly upwards. Sales on 'Change comprised 300 bbls. very good to choice Howard Street Super at $5 87½@6, 100 bbls. choice Ohio do. at $5 87½, and 200 bbls. good Howard Street Extra at $6 87½ ₰ barrel.

Grain—The offerings on the Corn Exchange this morning were as follows: 10,000 bushels Wheat, 5,000 do. Corn, 1,000 do. Oats and 100 do. Rye. Wheat was in good demand for home milling and shipment, and prices of all grades favored sellers. Transactions embraced some 5,000 bushels very inferior to medium Southern white at $1 25@1 55, 3,500 bushels fair to very good do. at $1 70@1 80, 2,000 bushels prime to choice do. at $1 85@1 90, 2,000 bushels good to prime Kentucky white at $1 70@1 75, 4,900 bushels damaged to very fair Southern red at $1 25@1 48, and 2,500 bushels good to choice do. at $1 50@1 58. Corn was in fair request, but white ruled lower. Sales of 3,000 bushels damaged to prime white at 98c@$1 62, a small lot of choice do. at $1 05, and 3,000 bushels prime yellow at $1 05. Transactions in Oats footed up 3,500 bus. common to prime Maryland at 61@65c., measure. Rye was steady. Sales of 200 bushels Maryland at $1 05@1 15, as to xuality.

Molasses—Trade demand fair for all varieties. We quote: Clayed Cuba at 46@50 cts; Muscovado 52@54 cts; English Island 46@63 cts., and Porto Rico 60@65 cts ₰ gallon.

Whiskey—With a reduced stock and short receipts the market rules very firm. Sales reported of 150 bbls. Ohio at 61 cts., and 100 bbls. at 61½ cts.

CINCINNATI COAL MARKET.—The river still keeps down, and, notwithstanding the fact that millions of bushels are mined and in boats at and above Pittsburgh, none can be brought down, and the people of this city, admonished by the chilling wintry winds which have prevailed during the week, are greatly alarmed. The price ranges from $12 to $15 ₰ load of 25 bushels, but coal rather than the price is the consideration, as there is none to be had of consequence. The City Council, at its last session, appointed a committee, and gave it $20,000, to buy coal and bring it in by railway from all points where the coal can be found, and sell it in small quantities to citizens at cost price; but the amount needed for domestic and manufacturing purposes cannot be obtained in this manner, and manufacturers will have to stop to a great extent. The interests of this city demand that arrangements be made to have an abundant supply of coal always on hand, otherwise our manufacturing prosperity will be greatly retarded in its onward progress.

Markets by Telegraph.

NEW YORK, Oct. 9.—Cotton quiet and firmer, at 80@90c for middling uplands. Flour 5 to 10c better and rather more doing; $5 55@5 70 for extra State; $6 25@6 40 for R. H. O.; $6 45@8 00 for trade brands; the market closing dull and scarcely so firm. Whisky decidedly better, 61@63c; closing unsettled. Wheat more active, and 3 to 4c higher; closing more quiet and scarcely so firm; $1 15@1 18 for old Chicago spring; $1 28@1 30 for new do; $1 17@1 24 for Milwaukee club; $1 28@1 36 for old winter red Western; $1 18 for inferior do. Rye firm, at $1 12@1 16. Barley decidedly firmer; $1 40 refused for prime Canada Western; sales of 11,000 bus at $1 35 for State; 11 36 for Chicago. The speculative demand for corn still continues, and again advanced 2 to 3c; $100@1 02 for shipping; mixed Western, afloat, $100@1 02; do in store. BALTIMORE, October 9.—Flour advancing and scarce; wheat firm; red declined 1@2c. Corn dull. Whisky firm and excited, with sales at 63@63½c.

PHILADELPHIA, October 6—Flour dull. Wheat active; sales 10,000 bus red at $1,45@1,50; Kentucky white $1,70@1,76.

RIVER MATTERS.

We condense the following from Friday's Cincinnati *Commercial*:

The weather was cool and alternately cloudy and clear yesterday, with slight indications of snow last night. Here, the river has receded one inch since our last report. The prospect, we must say, is rather gloomy for more water at present. The last arrivals report thirty inches on Warsaw Bar, and two feet in the canal. The lower Ohio, Cumberland and Tennessee are falling.

The Progress, from the Muskingum River, was the only arrival outside of the daily packets.

The Marmora and Convoy, for the Kanawha; Genera, Grant for Gallipolis, and Nyanza for Memphis, comprise the departures. The Convoy has one or two barges of Government freight. The Nyanza has a fine trip of people, but a light freight trip.

The Maysville packet Ben Gaylord sunk one of her lighters at Neville, on her last trip. None of the freight was damaged.

The Little Progress, from Muskingum river towed down a flat containing one thousand bushels of coal, which was sold to parties in Covington for thirty-five cents per bushel.

Information has been received at Madison that there is a plot on foot to burn the new boats building at that point. We are informed that the incendiary ringleaders are "spotted."

We find the following in the Louisville *Democrat* of Wednesday:

Owing to the large number of steamboat disasters on the Western waters of late, and the discovery of a plot to burn all the shipping on the Western waters, all the insurance offices in this city have given notice that they will insure no more en any steamers navigating the Western waters. They also refuse to insure on any goods that are shipped on such steamers. This will have the effect, to a great extent, to prevent shipments, and owing to the extra rigk that the shipper and consignee will have to run, all goods will, no doubt, greatly advance.

LOUISVILLE.

The river at this point was about on a stand at dark last evening, with 22 inches of water in the canal. On Portland bar there is 30 inches water in the channel; 22 inches at French Island, and 30 inches at Flint Island and Scuffletown.

The rise in the Kanawha, from all we can learn, has not exceeded 6 feet. This, with a corresponding rise in the other upper tributaries, would make but a slight improvement in navigation below the falls. The heavy rains of Tuesday night and yesterday seem to have extended as high up as Pittsburg, and may help swell the river sufficiently to let out the lighter eoal-bvrges. We hardly think enough has fallen, however, to bring about this desirable result.

Pusiness on the landing is dull. The weather is cloudy and cold.

SAINT LOUIS.

There is 4½ feet scant in the channel out to Cairo, and about the same depth below.

The Illinois river is falling from Peoria down to the mouth, with twenty-two inches in the channel foa a steamboat.

The Upper Mississippi is falling from St. Paul down. There is 3½ feet on the Upper and 30 inches on the Lower Rapids.

Below Keokuk there is 3¼ feet in the channel. The worst bar is at the mouth of the Illinois river.

At last accounts from the Missouri river that stream was falling. There is 3½ feet scant above Jefferson and as far up as Lexington, and 30 inches below Jefferson. The Missouri is dead low, and navigation in it will soon close for the season.

A considerable amount of rain fell on Tuesday evening, and yasterday the weather was clear and cool.

Business on the landing was dull.

in Philadelphia, on Wednesday, stock of the Merchants and Manufactures Bank, of this city was sold at $54.

The September earnings of the Western railroads are beginning to come in, and, contrary to the expectations of some persons; every one of them shows an increase on the receipts in corresponding month last year. The Galena increases $73,195; the Rock Island $73,190; the Hudson River $56,012, and Michigan Southern $24,743.

Highly Important Negotiations!

PEACE PROPOSITIONS.

FROM PHILADELPHIA.

Special Dispatch to the Commercial.

PHILADELPHIA, Oct. 9.

Notwithstanding the denial of Washington papers it is a fact that the question of a settlement of the impending difficulties between the Northern and Southern States, without further bloodshed, has been under consideration both in Washington and Richmond.

Action thus far hardly authorizes the statement that peace propositions are being considered, as the negotiations have not yet reached any definite propositions. It will be shown shortly that the Government has either accepted or rejected a plan proposed, to try to bring the war to a speedy and bloodless conclusion, without dishonor to the North or humiliation to the South.

LETTER FROM GEN. GARDNER TO DAVIS.

Among the letters to Jefferson Davis recently captured, is one written by General Gardner, of South Carolina, dated Mexico, as far back as 1854, when Davis was Secretary of War, developing a scheme of a great federation of West India Islands, including Cuba. The Confederation was to have been a formidable commercial and naval power, stimulated in their advancement and prosperity by African slavery, as now existing in the Southern States, where Southern planters of enterprise would find space and inducements enough to seek new homes for themselves and domestics, in the most lovely domains of God's creation, and all united in harmony under one homogenous American system.

REPORT OF THE ENGAGEMENT AT BRASHEAR CITY DISCREDITED.

The report of the recent engagement at Brashear City, Louisiana, in which the Union troops were at first defeated and afterward successful, is not credited at Washington.

THE MISSOURI QUESTION.

JAMES S. ROLLINS, member of Congress from Missouri, is present working strongly against the mission of the Missouri delegation in the case of Gen. SCHOFELD. It is said that Mr. LINCOLN has promised that an order shall be issued in Missouri similar to that issued by Gen. BURNSIDE in Kentucky, preventing rebels from voting at elections.

GEN. HEINTZELMAN NOT TO BE RELIEVED.

It is now understood to be settled at Washington that Gen. HEINTZELMAN will not be relieved from duty and sent to Texas as was supposed a few days ago would be the case. For the present there is to be no change in this Military Department, either in Military Commander or in Military Governor.

THE PEACE RUMORS DENIED.

The afternoon edition of the *Tribune* has the following dispatch from Washington: The statement of the *Herald* that within the last few days propositious of peace have been introduced into the Cabinet, is denied upon the very highest authority.

THE RUSSIAN MINISTER.

Surprise is expressed in diplomatic circles here that the Russian minister, although in New York, has not been heard of in connection with any *fetes* to officers of the Russian fleet.

GEN. WADSWORTH.

Gen. WADSWORTH, who has been in town for several days, has been ordered to the Department of the Gulf, to report to Gen. BANKS.

NON-REMOVAL OF GEN. HEINTZELMAN.

Gen. HEINTZELMAN will, as things now look, at least for the present, retain command of the Department of Washington. Efforts to supersede him seem to have been abortive.

FROM WASHINGTON.

Special Dispatch to the Commercial.

LATEST FROM ROSECRANS.

WASHINGTON, Oct. 9, 1863.

The Government has received advices from Chattanooga down to the 7th. On the 5th the rebel batteries opened on Rosecrans' position at long ranges, the longest being three miles, and the shortest about two and seven-tenths of a mile. The firing was not very rapid.

A dispatch from Rosecrans' Headquarters, dated the 7th, says: "Not a man was injured by the rebel batteries yesterday. Our men are not annoyed by the long range firing in the least, and keep up their work the same as ever. The negro boys continued to play marbles while the bombardment was going on, which is some evidence that a very extensive alarm did not exist."

Other dispatches go to show the impregnable position of Rosecrans.

LATEST FROM ROSECRANS.

There is no official confirmation of the rebel statement that one of Rosecrans' pontoon bridges across the Tennessee river had been carried away by a freshet, and that another had been submerged. The telegraphic communication broken by the raiders between Nashville and Stevenson, has been re-established.

MIDNIGHT.—There is nothing additional from Rosecrans to that telegraphed you this morning, beyond confirmatory dispatches that communication is maintained perfectly.

ARRIVAL OF GEN. MERADITH.

GEN. MERADITH arrived here to-day from James River, fresh from a conference with the rebel authorities in relation to an exchange of prisoners. He had an interview with the Secretary of War to-day. The rebels strive to throw everything in the way in arranging a new cartel.

ALL QUIET ON THE RAPIDAN.

Advices from the Rapidan to-day show that no rebels, not even cavalry, occupy any position on this side of the Rapidan. Both armies maintain their usual quiet.

CHASE GONE TO OHIO.

Secretary CHASE, accompanied by several Ohioans, left for Columbus to-night, to be present at the election on Tuesday next.

GILMORE AND DAHLGREN ON FRIENDLY TERMS.

The *Republican* is authorized and requested to state, in behalf of General GILMORE and Admiral DAHLGREN, that there is not now and never has been any misunderstanding whatever between those two officers, and that the most pleasant relations have always existed and do now exist between them.

DESERTER REPRIEVED.

The sentence of death by court martial, which was to have been executed upon a private of the 122d N. Y. Volunteers, of the Army of the Potomac, at noon to-day, was suspended by order of the President, providing the culprit would agree to make up the time he was absent by desertion by continuing in service after the three years' term of his regiment had expired.

SLIGHT DIFFERENCE.

The rebel papers have repeatedly stated of late that Bragg held five thousand prisoners captured on the 20th and 21st ult. The exchange that took place the other day turned over to Gen. ROSECRANS a few less than two thousand men wounded in all.

EXCITEMENT IN WALL STREET.

Yesterday, Wall Street, New York, was excited with the report that the French had taken possession of Matamorrs, in Mexico, situated at the mouth of the Rio Grande, and to-day bulls and bears are startled with the announcement that Gen. MEADE has advanced upon and occupied Richmond.

FERNANDO WOOD IN THE CITY.

FERNANDO WOOD and family have arrived for the season, preparatory to the meeting of Congress.

INDICTMENT QUASHED.

The Court to-day quashed the indictment against Count Garowski, charged with libeling in a book called "My Diary," Chief Clerk Hunter of the State Department.

EDWRD EVERETT TO DELIVER AN ORATION.

EDWARD EVERETT has notified the proper committee of his acceptance of the invitation to deliver an oration on November 19th at the consecration of the National Cemetery on the battlefields of Gettysburg.

WHAT DESERTERS SAY.

Five deserters came up to-night from the rebel army. They say no more of LEE'S troops have gone to BRAGG, and that positively only two divisions of LONGSTREET'S corps were sent forward before the late battle. One division of EWELL'S corps, however, had just arrived from LEE, at Charleston, and were sent immediately to BRAGG. This comprises the entire reinforcements from the rebel army in Virginia.

DEPARTURE OF FERNANDO WOOD.

FERNANDO WOOD did not call on any officials to-day. He returns to New York to-morrow. Ex-Governor REEDER arrived to-night. A.

Southern News.

NEW ORLEANS, Sept. 30.—The headquarters of the 19th army corps, under Franklin, and part of the 13th army corps, under C. C. Washburne, are at Camp Bigland, 50 miles from Brashear City. They have met no enemy as yet. Foraging parties have gathered up large quantities of mules, horses and cattle, but the plantations are generally deserted. The advance of the army was delayed on account of obstructions in Bayou Teche. These obstructions were blown up and the Bayou is now open for steamers to New Iberia.

On the 23d a raid was made on the telegraph office situated opposite Donaldsonville, by a band of guerrillas. Fourteen men of the New York 14th cavalry and the telegraph operator, Mr. Allen, of Illinois, were captured. In consequence of this raid an expedition was set in motion to clear the country in that neighborhood. This expedition left Carrolton on the night of the 26th, by steamboat, about 1,000 men strong, under Brig. Gen. Burbridge. He reconnoitered the whole country to the arm of the Areite River without meeting the enemy, and returned to Carrollton on the 28th without casualty.

Lieut. Earl, of the 4th Wisconsin, in command of a squad of 40 cavalry, marched from Baton Rouge on the 28th as far as the Cornite River. He captured 54 prisoners. Among them were the notorious Col. Hunter and Capt. Perry, guerrilla chiefs.

It is known that Gen. Logan (rebel) is on the East side of the Mississippi River, seven or eight miles below Mergausie Bend, with 2,500 men and four pieces of artillery, and is supposed to be marching to Liberty, Miss., where a Rebel force is concentrating.

Dispatch from Gen. Meigs.

WASHINGTON, Oct. 9.—It is ascertained that none of Gen. Rosecrans' very latest dispatches, which are to the evening of the 5th inst., mention anything relative to the situation in the locality of Chattanooga. All of them refer entirely to military details. The other dispatches, however, recently received by the Government, speak of events in that quarter, and are from Gen. Meigs. The following dispatch has been received at headquarters:

FORTRESS MONROE, October 9.—To Major General W. H. HALLECK.—I have the honor to report that the expedition sent out on Sunday under General Wister, to break up or capture the guerrillas and a boat's crew organized by the enemy in Mathews county, has returned, having in the main accomplished its object. The capture of four naval officers, thirty-five men and twenty-head of cattle belonging to the confederates, together with horses, mules and arms, are the results.

Gen. Sherman, commanding the 15th army corps, reports to headquarters that many of the best inhabitants of Mississippi are now clamoring for peace, on terms acceptable to all who do not aim at the destruction of that part of the United States, and thinks also that no hostile army would be required to visit the interior of that State.

Rebel Reconnoisance.

NEW YORK, October 9.—The Washington correspondent of the *Commercial* states that the recent rebel advance on Rosecrans' rear, proves to be an extensive reconnoissance to discover what forces were moving to the support of our army. It did not have in view, at least such were not the results, any serious interruption of communication, which the rebels knew would bring on an engagement which would result in serious defeat to them, a fact fully realized before their object was accomplished. What little intelligence was gained by the rebels it is not proposed to state here. By this time the rebel cavalry will be back South of the Tennessee river, and from the preparations to keep open communication with Chattanooga, it is not believed that they will run the risk of penetrating so far within our lines.

Gen. Hooker who, as was published a few days since as being at Nashville, has left that place, but not to take command of Burnside's forces, as lately intimated. His position is entirely separate and independent.

On the whole the officials here seem to be well pleased with the situation of Rosecran's army.

The day is now past for the rebels to crown Chicamauga with what possibly might have been a legitimate success. East Tennessee is forever ours.

The Warsaw Massacre.

ST. LOUIS, Oct. 9.—Information received to-day contradicts the report of yesterday about the indiscriminate slaughter of citizens at Warsaw by the rebels. The number of persons killed is now said to be twelve, while many think even this an exaggeration. The statement is probably altogether untrue, as the town has always been strongly Secesh, and it is not likely any great amount of damage was done.

The latest information places rebels about twelve miles from Syracuse, on Cole Camp road, where it is presumed they will camp to-night. They are estimated at 1,500, with two pieces of artillery. Maj. Foster skirmished with the rear-guard to-day, wounding two and capturing three prisoners. The military authorities are doing all in their power to protect the people.

From Charleston.

NEW YORK, Oct. 9.—The transport Curlew, from Charleston harbor on the morning of the 6th, left Port Royal on the 4th.

The Patapsco and Passaic are at Port Royal.

Gen. Gillmore is hard at work but the navy is quiet. The Baltimore *American's* correspondent, dated evening of the 5th, states that all is quiet beyond occasional firing from the rebel forts. Gilmore's preparations are nearly completed and active operations will soon be commenced.

Prize Fight in San Francisco.

SAN FRANCISCO, Oct. 8.—Two steamboat loads of passengers started on Tuesday, from this city, to witness the prize fight between two pugilists named Dwyer and Walker. The fight commenced on Tuesday night, and, after fighting seventeen rounds, adjourned on account of the darkness. It was resumed on Wednesday morning and continued three hours and twenty minutes, making, in all, forty-one rounds in four hours. Dwyer was declared the victor. Walker was withdrawn by his friends much against his will. Walker was entirely blind. His fighting was declared good by all parties.

NASHVILLE, Oct. 9.—There is no prisoners confined here except Dick McCain and thirty of his men.

COMMERCIAL.

New York Dry Goods Trade.

From the Independent.

THE market is strengthening daily. Prices of all cotton goods have advanced again, and that considerably. There appears a scarcity of supply. Many kinds of woolens have also advanced under a pressure of immediate demand, but there is a free supply in course of production, which is not the case with cotton goods. Jobbers are very active, buying to replace stocks which they are rapidly selling. Brown and bleached goods are difficult to quote the price of. Prices are higher, but there is some irregularity, as many holders are waiting for still higher prices. Prints have also improved in price, and there is great excitement in the market, which is scantily supplied.

In woolens there is a steady activity of demand, though not so great as during last month. Delaines continue selling to arrive, as there is no stock on hand. Novelties still come forward and command an advance on regular styles. Desirable styles of fancy cassimeres are very quick of sale, and at buoyant prices. Old styles are steady. The supply of new goods is tardy, and choice styles are sold to order before they are off the loom. Satinets are active and steady. Heavy goods are more active. Beavers have advanced in price. Doeskins for cloaking sell readily. Broadcloths are in good demand. Scarlet is very much wanted, but scarcer. Shawls sell freely as they come forward, and nothing accumulates. Army kerseys are held at an advance, with a steady demand.

Imported fabrics, owing to the advance in gold, have been raised to meet the increased cost of remitting. Desirable goods are very scarce. Jobbers are anxious to obtain the goods as they arrive. There is a great scarcity of British dress goods. Coburgs, delaines, alpacas, and Orleans are much wanted. Saxony dress goods are scarce. French merinoes seem the most active, but the demand is greater than the large supply. Dress silks have advanced considerably. Low-priced blacks are eagerly taken. The supply of ribbons has been large enough to meet the demand; a few fancy styles alone have advanced. Stocks of woolen goods, imported are very light. Heavy goods are much wanted. Fancy woolen shawls are much sought for. The importations are large for the week, and all goods are immediately thrown on the market. Trade continues very active; prices firm; nearly all kinds of goods have advanced since last report, and it is generally thought they will go still higher,

European Markets.

LIVERPOOL, Sept. 25.—The sales of Cotton for the week have been 64,000 bales. Americans and Surats have advanced ½d and ⅛@¼d for other descriptions. The sales to speculators were 23,500 bales, and to exporters 10,500 bales. The sales on Friday were 6,000 bales, closing easier; speculators and exporters taking 3000 bales. The authorized quotations are:

	Fair.	Middling.
New Orleans	nominal	27½
Mobile	27¼	27⅓

Breadstuffs—Messrs. Wakefield, Nash & Co. and Bigland, Athya & Co., report Flour dull and declined 6d. Wheat heavy and declined 6d: sales of winter western red at 8s 3d@8s 6d. Corn dull, with a declining tendency; sales of mixed at 26s 6d, and white at 28s@29s.

Provisions—Messrs. Richardson, Spence & Co. and Gordon, Bruce & Co. report Beef steady; Pork firm, but quiet; Bacon firmer, at a partial advance of 6d@1s; Lard steady; Tallow active, and advanced 6d@1s.

Produce—Ashes—Pots and Pearls active at 30@34s; Sugar quiet, but firm; Rice steady; Coffee easier Linseed flat at an advance of 1c. Linseed Oil quiet; Cod Oil, no sales; Spirits Turpentine inactive; Rosin quiet, sales of common at 30s; Petroleum flat, sales of crude at £20 @21.

LIVERPOOL, Saturday Evening, Sept. 26.—Sales of Cotton to-day 8,000 bales, the market closing firmer. Speculators and exporters took 4,000 bales. Breadstuffs dull. Provisions steady.

LONDON MARKETS.—Breadstuffs—A downward tendency prevails. Sugar firm; coffee flat at a partial decline of 1s.; rice steady; iron firm for both rails and bar. Spirits tincture is declining; sales at 21s. Tea, no sales. Tallow irregular.

American Securities: Illinois Central Railroad 12@14 discount; Erie Railroad shares 72@74.

PARIS, Saturday evening, September 26—The Rentes are firmer, and close at 67f. 60c.

New York Grocery Market.

Molasses—We have still to report a quiet market for Molasses, but with a light stock, prices remain very firm; sales of 90 hhds, Cuba Muscovado at 50c. We quote Cuba Muscovado at 45@55c; Cuba Clayed at 40@45c; Porto Rico at 60@65c; Barbadoes at 60@63c; and New Orleans at 45@60c.

Coffee.—Brazil is quiet at the moment, but holders are very firm and look for higher rates. The advance for the past three days is fully 1c. ₩ lb. We quote prime at 37½c; good, 32½@33c; fair, 31¼@32c; ordinary, 30¼@31c., and fair to good cargoes, 31½@32½c. Other descriptions also semain inactive but very firm at 32@34c for Maracaibo; 32@34c for Laguayra; 33@33½c for Ceylon; 38@39c for Java, all 4 mos., and 27@28c., cash, for St. Domingo. The only transaction we hear of to-day is 250 bags St Domingo in bond, on private terms.

SUGARS—The offerings of raw sugars are still very limited, and though the demand is good, transactions are restricted. Prices to-day are again better, and we quote fair Refining at 11¾@11⅞c, though at the close holders generally are demanding 12c. The transactions include some 1,500 hhds at 11¾@12¾c for Cuba, and 14¼c for New Orleans, and 330 boxes Havana on private terms. Refined are active, and a little firmer, Hards being quoted at 16¼@16¾c. Refiners find themselves very much ikcommoded by the strike of the coopers, which makes a short supply of barrels.

MILWAUKEE MARKET.—The market has again become active and buoyant, and not less than $110,000 bush changed hands at $1 05@1 05¼ for No. 1, and $1 02@1 02½ for No. 2 Spring in store. Thus swelling the total sales of the day to about 300,000 bush. This is the largest amount of wheat ever sold in one day outside of New York.

The Flour market was favorably affected by the rise in gold, but buyers were hardly disposed to come up to the prices asked. Sales of 600 bbls good country Spring extra at $5 25, and large amounts offered at the same figure without being taken.

Oats were in good request and 1@2c higher. Sales large at 53@54c for No. 1 in store, the market closing firm at the outside figure. About 25,000 bush changed hands. The market for other descriptions of coarse grains was unchanged.

Lake freights were dull at 6½c for wheat to Buffalo, and 11½c to Oswego. Five or six vessels were chartered at these rates.

TOLEDO MARKET.—Flour—Sales of 100 bbls XX, from red wheat at $4 60; 200 bbls do choice at 5 94.

Wheat—Sales of 5,000 bus Amber Mich at $1 20; 500 bus and 630 bus white Mich at $5 35, before steamer's news.

Corn—Last sale was of 1,000 bus No 1 mixed at 79c.

Oats—Quoted at 58c.

Rye—Quoted at 70c.

Barley—Brewers are paying $1.

Wool—The range is from 60 to 63c for medium grades.

Salt—Fine $2 45 ₩ bbl; coarse and ground solar $2 50.

Oils—Linseed $1 44 ₩ bbl; petroleum 70c ₩ gal, for refined.

Freights—Dull; engagements to Buffalo at 3c for wheat, and to Oswego at 6c for wheat.

PHILADELPHIA PIG IRON AND LEAD MARKET.—The iron market continues buoyant and firm, and most of the makers of pig metal being sold up the only sales we hear of are 300 tons gray forge at $33 cash, and 600 tons hot blast charcoal at $40 4 mos. Cold blast is worth $50 ₩ ton, and anthracite $36 for No. 1 and $34 for No. 2, cash. Scotch pig is wanted and very scarce at $27. Of manufactured the sales are light and prices very firm, most of the mills being busy with old orders, and not disposed to contract except at an advance.

Lead is better, with very little here to operate in. Sales are reported, to come from another market, at $8 75 for Galena, and $8 62½ the 100lbs for foreign, cash.

PROVIDENCE WOOL MARKET.—Market firm and active, with stiffening prices in foreign Wools. The sales for the week have been 38,300 lbs fleece at 65@77½c; 15,000 lbs pulled at 55@77½c; 70,112 lbs foreign at 30c.

Printing Cloths—Sales amount to 166,000 pieces, mostly for consumption; prices still remain far below the cost of production; advance full 1c for the week. The following are the sales for the week: 10,000 pieces 56x60, 14½c; 5,000 do 60x60, 14¼c; 3,000 do do, 14½c; 8,000 do 60x64c, 14½c, light; 9,000 do do. 15c; 8,000 do do, 15¼c; 7,000 do do, 15½c; 3,000 do do, 15¾c, heavy; 46,000 do 61x64, 15½c, 18,000 po do, 15¾c; 29 do do, 16c, haavy; 6,000 do do, 16c, 7 yards—166,000 pieces.

NEW YORK METAL MARKET.—Iron—The market for Scotch Pig is firmer and fairly active; the demand exceeds the supply; sales 400 tons at $40@41 ₩ ton, cash. American Pig is scarce and very firm at $33@34 for No. 2, and $35@35 50 cash, for Nu. 1, best brands, with more buyers than sellers at these rales. We observe that Philadelphia rates are higher than these quotations, but 4 ₩ cent. cash, and $1 25 freight have to be deducted from the former. It will also be observed that the price of Scotch Pig is now considerably higher than domestic, but this is occasioned mainly by the rapid rise in the rates of Sterling Exchange as well as by the scarcity of the article. Other descriptions are also in light stock, and the market for all kinds is quite buoyant; sales 400 tons Charcoal Iron, to go to Baltimore at $40 cash.

CHICAGO GRAIN AND FLOUR STOCKS.—The following is the amount of Flour and Grain in store in Chicago October 3d, as compared with the amount in store the same date last year:

	Oct. 3, 1863.	Oct. 3, 1862.
Flour, bbls	32,605	14,618
Wheat, bush	735,731	545,568
Corn, bush	469,470	1,910,922
Oats, bush	609,020	....
Rye, bush	33,816	....
Barley, bush	109,894	....

NEW YORK COTTON MARKET.—The continued good demand both from speculators and spinners, the very light stock both present and prospective, and the advices from abroad, have, all combined, induced still greater firmness on the part of holders, and the lowest rate to-day for good strict Middlings is 87½c. while many refuse to sell under 88c. and some demand as high 88½. The sales foot up about 1,800 bales, more extensive transactions being prevented by the want of stock.

OIL AND BONE.—Imports of Sperm and Whale Oil and Whalebone into the United States for the week ending Oct. 5, 1863:

	Bbls Sp.	Bbls Wh.	Lbs Bone.
Total for the week	1,450	80	2,650
Previously reported	51,944	51,866	350,450
From Jan. 1 to date	53,394	51,940	353,100
Same time last year	45,530	97,288	648,150

PHILADELPHIA AUCTION SALE, October 7th, by Samuel C. Cook, by order of United States Marshal—

758 bales Cotton, 90⅞@92½c, cash.

IMPORTANT TO
Railway Companies, Mill Owners, &c.
We have erected and have in operation near this city an extensive Labratory for the manufacture of
LUBRICATING AND PAINT OIL,
by a new and ingenuous scientific process—and now offer and commend to public notice and patronage three grades: A. B and C, respectively of 1st, 2d and 3d quality LUBRICATING OIL. Wherever these lubricators have been tested they have been pronounced greatly superior to any of the preparation lately offered in the market. The A, or best quality is designed to take the place of the best Sperm Oil, and for use on cotton, woolen or other fine machinery. The B, or second quality for Railways and other like machinery, and the C, or third quality for heavy and course gearing, &c.
The PAINT OIL has been tested by numerous painters in this city, and found to be a
Capital Substitute for Boiled Flax-seed Oil.
Indeed, many painters give it a decided preference. These OILS are now extensively manufactured at our
EUREKA LUBRIC OIL WORKS,
As the process is scientific and uniform, customers can rely on the uniform excellence of these economic equivalents of Sperm and Flaxseed Oil. A trial and test is confidently invited. For sale at No. 31 MARKET street, corner of Second.

HOSTETTER'S CELEBRATED STOMACH BITTERS.

HEAR THE WITNESSES.

WORTHLESS and pernicious articles are so often bolstered up in the advertising columns of the press by fabricated letters that the proprietors of

HOSTETTER'S BITTTERS

Rarely give quotations from their business correspondence, lest the GENUINE OPINIONS of those who use and appreciate a GENUINE ARTICLE, should be confounded by the unthinking with the FULSOME RIGMAROLE put into the mouths of MEN OF STRAW by unscrupulous empirics and charlatans, whose double object is to SELL both their trash and the PUBLIC.

Believing, however, that FACTS IMPORTANT TO THE HEALTH AND COMFORT OF THE PUBLIC, and which can be VERIFIED AT ANY MOMENT by addressing the parties who vouch for them, ought not to be hid under a bushel, the undersigned publish below a few communications of recent date, to which they invite the attention of the people, and at the same time ESPECIALLY REQUEST all readers who may feel interested in the subject to ADDRESS THE INDIVIDUALS THEMSELVES, and ascertain the correctness of the particulars.

It may be thought, perhaps, that a preparation like HOSTETTER'S STOMACH BITTERS, which has long been a STANDARD TONIC throughout the WESTERN HEMISPHERE, and is rapidly becoming a staple of trade at the antipopes, speaks for itself in stronger tones than private eulogium can speak for it. This is true; but the phases of disease are almost innumerable, and every day new instances of the success of the Bitters, either as a PREVENTIVE or a CURE, come to the knowledge of the proprietors through the mails. Some of these are of immediate interest to thousands placed in precisely the same circumstances as the parties who have been PROTECTED and RELIEVED, and therefore it seems almost an act of duty to put them on record.

The immense increase in the sale of HOSTETTER'S BITTERS, both at home and abroad, during the past year proves that the world, while it obeys the Scriptural injunction to "try all things," only "HOLDS FAST to that which is GOOD." Spurious preparations, like poisonous fungi, are continually springing up, but their character is soon discovered, and they are "flung like worthless weeds away." On the other hand, a great antidote that performs all it promises, and even more than its proprietors claimed for it on its introduction, is "not for a day, but for all time."

Every dose administered of a useless or deleterious nostrum helps to disabuse the public mind of the impressions it may have received from the flourish of trumpets with which the deceptious article was announced; while, on the contrary, every bottle sold of a purely valuable medicine secures the permanent custom of the purchaser, and makes him an ADVERTISER OF ITS MERITS among his friends. It is thus that HOSTETTER'S BITTERS have obtained their unparalled popularity. The Press, indeed, has made the GREAT STOMACHIC widely known, but it is the uniformly successful results of PERSONAL EXPERIMENT that have rendered it a HOUSEHOLD MEDICINE through out the length and breadth of the land, and the main reliance of the TRAVELER, the VOYAGER, the MINER and the PIONEER.

During the Summer months, a pure, wholesome tonic, in which are also incorporated the properties of an anti-bilious and mild aperient agent, is especially needed. Such a preparation is HOSTETTER'S STOMACH BITTERS, the surest preventative and cure of dyspepsia, biliousness, constipation, and nervous debility, ever placed within the reach of the community.

Against the depressing and sickening tendency of heat and miasma, it is a potent safeguard, and upon persons of feeble constitution and uncertain health, its renovating effects are most extraordinary.

READ REV W. B. LEE'S LETTER,
BROOKLYN, N. Y., May 28, 1863.

MESSRS. HOSTETTER & SMITH—*Gentlemen*:—I have used your Bitters during the last six weeks and feel it due to you and the public to express my hearty approval of their effect upon me. I nevor wrote a puff for any one, and I abhor everything that savors of quackery. But your Bitters are entirely removed from the level of the mere nostrums of the day, being parent alike to all, and exactly what they profess to be. They are not advertised to cure everything, but they are reccommended to assist nature in the alleviation and the ultimate healing of the most common infirmities of the body, and this they will accomplish. I had been unwell for two months, as is usual with me during the Spring. I was bilious, and suffering from indigestion and a general disease of the mucous membraue, and though compelled to keep at work in the discharge of my professional duties, was very weak, of a yellow complexion, had no appetite and was much of the time confined to my bed. When I had been taking your bitters a week my vigor returned, the sallow complexion was all gone, I relished my food, and now I enjoy the duties of mental application, which so recently were so very irksome and burdensome to me, When I used your bitters I felt a change every day. These are facts. All inference must be made by each individual for himself.

Yours respectfully,
W. B. LEE,
Pastor of Green avenue Presbyterian Church.

READ E. D. E. N. SOUTHWORTH'S LETTER.
PROSPECT COTTAGE,
GEORGETOWN, D. C., April 2, 1863.

MESSRS. HOSTETTER & SMITH—*Gentlemen*: It gives me pleasure to add my testimonial to those of others in favor of your excellent preparation. Several years of residence on the banks of a Southern river, and of close application to literary work, had so thoroughly exhausted my nervous system and undermined my health, that I had become a martyr to dyspepsia, and nervous headaches recurring at short intervals, and defying all known remedies in the Materia Medica, I had come to the conclusion that nothing but a total change of residence and pursuits would restore my health, when a friend recommended Hostetter's Bitters. I procured a bottle as an experiment. It required but one bottle to convince me that I had found at last the right combination of remedies. The relief afforded me has been complete. It is now some years since I first tried Hostetter's bitters, and it is but just to say that I have found the preparation all that it claims to be. It is a standard family cordial with us; and even as a stimulant we like it better than anything else; but we use it in all nervous, bilious and dyspeptic cases from fever down to toothache. If what I have now said will lead any dyspeptic or nervous invalid to a sure remedy, I shall have done some good.

I remain, gentlemen, respectfully yours,
E. D. E. N. SOUTHWORTH.

READ JOHN W. BRONOUGH'S LETTER.
NAVY DEPARTMENT,
Bureau of Yards and Docks, Dec. 30, 1862.

MESSRS. HOSTETTER & SMITH, Pittsburgh, Pa.:

Gentlemen: About four years since, my attention was called to your celebrated Stomach Bitters, I being at the time a perfect martyr to dyspepsia in all of its terrific forms; indeed, I had not known for six years an uninterrupted night's sleep. I commenced the use of your Bitters, taking them according to your directions, except that the dose was reduced to one-half, and found myself much, very much benefitted by the first bottle; the second relieved me entirely; but I have ever since taken a dose in the morning, immediately on rising, finding it act as a tonic and appetizer of the most agreeable character. There is a peculiarity in the effect of your Bitters on me, which it may be well to state. If from any cause, I shall be suffering never so acutely with the headache, a dose of your Bitters relieves me in fifteen minutes. In conclusion, I say with all sincerity and truth, I would not be returned to the state of health in which your Bitters found me, and from which they have unquestionably relieved me, for all the money in the world.

I am, with great respect, your obd't servant,
JOHN W. BRONOUGH, Chief Clerk.

READ SAMUEL BYER'S LETTER.
NEW CONVALESCENT CAMP,
Near Alexander, Va., May 24, 1863.

MESSRS. HOSTETTER & SMITH—*Dear Sirs*: Will you do me the favor to forward, by express, one-half dozen Hostetter's Stomach Bitters, with bill, for which I will remit you on receipt of the same, as I am unable to procure your medicine here; and if I had a quantity, it could be sold readily, as it is known to be the best preparation in use for diseases having their origin with a diseased stomach. I have used and sold hundreds of preparations, but your Bitters are superior to anything of the kind I am cognizant with. Indeed, no soldier should be without it, should he be ever so robust and healthy; for it is not only a Restorative, but a Preventative, for almost all diseases a soldier is subject to. I have been afflicted with chronic indigestion, and no medicine has ever afforded me the relief yours has; and I trust you will lose no time in sending the Bitters ordered. Yours respectfully,

SAMUEL BYERS, Hospt.

RENSSELAERVILLE, July 7, 1864.

MESSRS. HOSTETTER & SMITH—*Gentlemen*:—Please send me some of your Bitters at your earliest convenience, as I have at present an extensive sale for them. I have no medicine of which I sell as much as your Bitters. I have kept them for two years last past. They have now begun to sell. They have performed some remarkable cures in Dyspepsia which have been of long standing, and from which they have acquired a reputation won by no other medicine in our market. I can send you certificates surpassing anything you ever published, if of any value to you, being anxious such a medicine should be introduced in every place. If persons were as well acquainted with it as I am, they would not be without it. Respectfully yours,

W. P. SWEET, Druggist,
Rensselaerville, Albany Co., N. Y.

MANUFACTURERS' AGENTS FOR
TRITTIN'S IMPROVED PORTABLE NO CHIMNEY BURNERS.

Patented Eighth Month August 19th, 1862, and March 31st, 1863.

THIS Lamp is offered to the public in great confidence that it is the best one of its kind now in the market.
It has been selected by the largest manufacturers of New York and New England, for manufacture, in preference to all others shown them, for its superiority of light,—facility of carrying about, and especially for its *non-conducting principle*, which renders it perfectly safe against the effects of heating.
It is simple in construction, and is afforded at very low prices. For a Kitchen and Chamber Lamp, for Workshops' and Vessels' use, it is economical and invaluable, and is rapidly superseding other lamps. The cheapness and almost universal use of Coal Oil, commends this lamp to all *housekeepers*.
Particular attention is called to its admirable adaptation to LANTERNS. A simple trial will show its great superiority in this respect over all other Burners.
Lamp dealers throughout the country will be able to supply the public with this useful Burner. oc3
